

“Stop Worrying, Start Living” **Free Educational Workshop Series**

Workshop: Eldercare Law and Asset Protection

The bottom line is that you don't have to go broke in a nursing home. The law allows people to keep their homes and most of their money— if they know how. But it is critical to have the assistance of an trustable, experienced and knowledgeable and Elder Law Attorney.

Asset preservation and financial planning are the focus of Elder Law. A successful Long Term Care Plan not only ensures the orderly distribution of your property upon your death, but also encompasses what happens if you don't die, but get sick and need long-term care. The goal is to take steps to preserve your financial independence for as long as possible and to appoint an advocate in case of your incapacity.

This clinic discusses the essential basic estate planning considerations and documents that every citizen ought to have, and provides an overview of guardian, nursing home, Medicaid, and asset protection planning – including:

- Professional Guidance
- Asset Protection Planning
- Medicare vs. Medicaid
- Living Wills/Health Care Powers of Attorneys
- Mental incompetence: Incompetency
- What is Guardianship
- How to Choose an Attorney
